

Aptify®

Configurable, flexible membership management platform.

For large associations

Aptify offers the only truly flexible enterprise association management software built on a development platform. Intuitive technology to support today's processes, coupled with the flexibility to adapt to change in the future.

Adopt once and adapt often with an open platform designed to grow with you

Increase efficiency with 21 core capabilities that work together seamlessly.

Make data-driven decisions with greater insight into your organization.

Enhance convenience, connectivity, communication, and collaboration.

Single source for member data

Capture and track member and financial information in a single database or easily integrate with your favorite third parties so you never lose vital data.

Streamlined processes

Automate manual and time-consuming processes using customizable, automated workflows that don't require an IT ticket.

Seamless searching

Powerful search functionality reduces the learning curve and empowers staff to seamlessly work within the system to accomplish more.

Reliable reporting

Easily create views and reports to gain the specific insights you need to drive your organization forward.

Fully-branded eCommerce sites

Manage payments, orders and preferences while delivering a modern consumer-like shopping experience.

Highly configurable, upgradeable

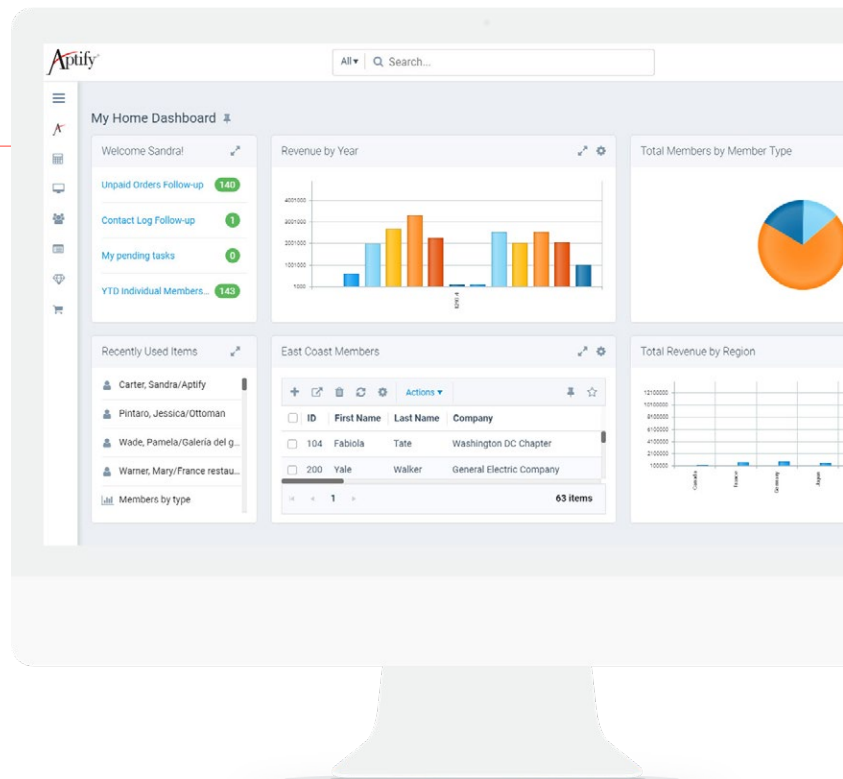

Receive the convenience of an out-of-the-box application with the ability to configure to fit your specific needs.

THE ONLY AMS TRUSTED BY ASAE.

“I don't think of Aptify as a technology provider. I think of Aptify as a partner, helping me get my organization's work done. (...) It really does feel like a partnership.”

Reggie Henry

Chief Information Officer
American Society of Association Executives
